SUMMARY

Results-driven IT professional and Full-Stack Web Developer with 5+ years of hands-on experience in PHP, MySQL, Laravel, WordPress, WooCommerce, JavaScript, API integration, and web application development. Experienced in leading technical projects from requirement analysis to deployment, while working directly with clients and teams to deliver practical business solutions. Also brings 3 years of hands-on business and operations management experience as a Managing Director.

WORK EXPERIENCE

Co-Founder & Managing Director | Khati Foodbazar (2022 – 2026) **2023 - Jul 2026**

Led the overall operation of the business and directly managed a 15+ member team across sales, customer service, inventory, packaging, and fulfillment. Personally developed and implemented team SOPs and KPI processes, managed logistics and product sourcing, led packaging decisions, and coordinated day-to-day office operations. Also planned the brand's social media advertising and content strategy, while overseeing customer experience, vendor coordination, and operational decision-making.

Wedevspro | Web Development & Digital Solutions **2019 – Present | Bangladesh**

- Started my professional journey in web application development in 2019 while pursuing my Diploma, developing strong practical expertise through intensive hands-on learning and real-world projects.
- Successfully delivered 120+ web projects for domestic and international clients, including business websites, e-commerce platforms, WordPress solutions, and custom web applications.
- Specialized in WordPress and WooCommerce development, with strong hands-on experience in PHP, MySQL, Laravel, JavaScript, REST API integration, automation, and AI-powered solutions.
- Managed projects from requirement analysis and technical planning through development, testing, deployment, troubleshooting, and maintenance.
- Worked directly with clients on system planning, technical requirements, UI/system structure, SEO, ASO, GEO, and business-oriented digital solutions.
- Developed customized automation and AI integrations to improve business workflows, reduce repetitive tasks, and enhance operational efficiency.
- Handled database design, system architecture, API integration, performance optimization, security, and technical troubleshooting across different projects.
- Coordinated multiple projects simultaneously while managing client communication, technical decisions, revisions, and final delivery.
